Survey instrument – English version. Berlin: German Centre of Gerontology. DOI: [10.5156/FWS.2014.D.003](https://doi.org/10.5156/FWS.2014.D.003)

## PRELIMINARY NOTE

The instrument for the telephone survey of the German Survey on Volunteering 2014 was developed by the German Centre of Gerontology. This documentation contains the English version of the questions, the answer categories, the programming instructions and the filter paths (see Table I for the columns structure of the instrument). Questions are documented according to the labels of the variables in the Scientific Use Files (DOI: 10.5156/FWS.2014.M.001). The survey was conducted in six languages: German, Russian, Turkish, Polish, Arabic and English. This document reproduces the English instrument. Question and answers were translated for use in the telephone survey by infas Institute for Applied Social Sciences. Filters, interviewer instructions and all other information were translated at the DZA for documentation purposes. Interviews were conducted by bilingual interviewer.

Table I: Contents of the columns of the survey instrument

| Column                          | Content  |
|---------------------------------|--|
| <b>Nr.</b>                      | Question number/Label of the variable  |
| <b>Type of information</b>      | Programming instruction (Prog.), input filter (Filter), interviewer instruction (Int.), question, text |
| <b>Interview text and notes</b> | Interview or question text plus interviewer instructions   |
| <b>Continue with</b>            | Information on the continuation of the survey or number of following question                          |

On the next page, you can find an overview of the contents of the survey instrument.

Detailed information on the methodological approach can be found in the methodological report and the main report of the German Survey on Volunteering 2014. The Scientific Use File, the short description, the methodological report and further information are available at the Research Data Centre of the German Centre of Gerontology ([www.fdz-dza.de](http://www.fdz-dza.de)).

The following wording of the questions and answers was used in the survey 2014. In contrast, the English version of the survey instrument 1999, 2004 and 2009 is documented

as post-interview translation<sup>1</sup>. Some differences in the English wording of questions between wave 4 and the earlier waves are due to these different translation procedures and do not reflect changes in the instrument. Real changes in the instrument can be reproduced according to the German version<sup>2</sup> of the instrument throughout the waves.
